President Pen...

Dear Friends,

I am truly humbled and deeply honored to accept the responsibility bestowed upon me as the President of Delhi Medical Association. This moment marks not just the beginning of a new chapter in my journey but also a profound commitment to serve the medical community and our society with unwavering dedication and integrity.

As I take on this role, I am acutely aware of the immense trust and confidence you have placed in me. I want to express my heartfelt gratitude to each and every one of you for your support, encouragement and belief in my ability to lead. Together, we embark on a journey filled with challenges, opportunities and responsibilities that require our collective efforts and unwavering commitment.

Delhi Medical Association has a long-standing legacy of excellence and service to the community. We have been at the forefront of advancing medical science, promoting professional standards and advocating for the well-being of both patients and practitioners. As we look into the future, we must continue to uphold these values and strive for excellence in all that we do.

In the face of evolving healthcare landscapes, technological advancements and global health crises, our role as healthcare providers has never been more critical. We must remain steadfast in our commitment to provide compassionate, evidence-based care to every individual who walks through our doors. We must also advocate for policies that prioritize the health and well-being of our communities and address the systemic challenges that hinder access to quality healthcare for all.

Furthermore, we must foster an environment that nurtures the next generation of healthcare professionals, providing them with the mentorship, support and resources they need to thrive in an ever-changing healthcare landscape.

As The President, I pledge to lead with integrity, transparency and inclusivity. I will work tirelessly to uphold the values of our esteemed Association and to address the needs and concerns of our members. But I cannot do this alone. I call upon each and every one of you to join me in this endeavor, to lend your expertise, your passion and your commitment in advancing the goals of Delhi Medical Association.

Thank you once again for entrusting me with this privilege and honor. I look forward to working alongside each of you in the service of our profession and our society.

Thank you.

Dr. Alok Bhandari
President, DMA

Secretary's Pen...

सोचने से कहा मिलते हैं,
तमन्नाओं के शहर।
मंजिलों को पाने के लिए चलने की,
ज़िद भी ज़रूरी है ॥

Dear esteemed members of the Delhi Medical Association,

It is with great honor and a profound sense of responsibility that I assume the role of State Secretary of our esteemed association. As we embark on this journey together, I am filled with an unwavering commitment to address the burning issues that confront our profession and to elevate the self-esteem of every medical practitioner in Delhi.

Our profession stands at the intersection of compassion and science, where the well-being of our patients is our utmost priority. However, we cannot ignore the challenges that plague our healthcare system, from resource constraints to regulatory hurdles. It is imperative that we work tirelessly to overcome these obstacles, ensuring that every citizen receives the quality care they deserve.

Furthermore, we must actively strive to enhance the self-esteem of our profession. We are not merely individuals in white coats; we are healers, innovators, and advocates for health equity. Let us celebrate our accomplishments, acknowledge our challenges, and stand united in our dedication to serving humanity.

In the coming months, I look forward to collaborating with each and every one of you to address these issues head-on. Together, we can foster positive change and uphold the integrity of our noble profession.

With warm regards,
Dr Prakash Lalchandani
State Secretary
Delhi Medical Association

Associate Editor's Pen...

Namaste esteemed seniors, dear friends, and colleagues,

I extend my sincerest congratulations to President DMA Dr. Alok Bhandari and the newly appointed office bearers who have recently assumed their roles on April 1st. I am deeply grateful to the top leadership of DMA/IMA for entrusting me with the significant responsibility of Associate Editor DMA for the year 2024-25.

DMA is not merely an association of over 16,000 doctors; it is an extended family dedicated to addressing members' problems, difficulties, and sharing their joys and sorrows. DMA and its office bearers are highly committed for resolving your issues, but in this mammoth task, we seek the support and cooperation of all of you.

In today's fast-paced world of social media, keeping the DMA Bulletin relevant and engaging presents a significant challenge. It's not merely a compilation of pages but the most enduring and consistent means of communication among members.

I aim to make the DMA Bulletin more captivating, informative, and frequent. I welcome your suggestions and active involvement in shaping the bulletin's content, including academics, society activities, and commercial needs. You can share your suggestions via DMA WhatsApp numbers, DMA mail, or directly with me. In upcoming bulletins, we plan to introduce regular columns for job vacancies, matrimonial notices, and literary contributions. I encourage all branch presidents and secretaries to contribute their activities regularly and promptly.

Once again, I assure you of my sincere dedication and commitment to fulfilling my duties. My best wishes to all new office bearers and DMA members for a productive and successful year ahead.

Kind regards,

Dr. Neelam Lekhi
Associate Editor

GRIPMER

Welcome to the Future

Revolutionizing Cancer Diagnosis:

Sir Ganga Ram Hospital introduces State-of-the-art
Next Generation Sequencing lab to help personalize Cancer Treatment

NGS streamlines genetic assessment by analyzing multiple genes in a single assay, eliminating the necessity for ordering multiple tests to pinpoint the causative mutation.

It is adapted in clinical oncology to advanced preconized treatment of various cancers (Hematological malignancies and solid tumors both).

Used for diagnostic and prognostic risk stratification by identifying known, novel and rare mutations. Detecting familial cancer mutation carriers.

Helps identifying screening the population for certain hereditary cancers.

Tests for the molecular assessment of various type of leukemia (AML, ALL, CML, MDS, MPN, CMML & JMML) can be ordered for diagnostics, risk management and targeted treatment.

Oncomine-Focus Mutation and Fusion Panel comprised 52 genes for identification of potential molecular mutations in Lung, Head & Neck, Thyroid, Colorectal, Pancreatobiliary,

Prostrate and Cholangio Carcinomas.

Cellfree assays for Solid Tumors are being introduced which is non-invasive procedure.

High Resolution HLA cross match for Stem cell transplantation

Dr. Ajay Swaroop
Chairman BOM
Department of Hematology

A state of the art centre for diagnosis of hematological disorders provides complete work up of Leukemias, lymphomas and stem cell assays. One of the best lab for the coagulation and thrombosis workup. Department raised the bar with the highly specialised Molecular Hematology lab in 2021. Hematology has always been in the top of its game by providing world class diagnostic services, teaching and research. Now the Molecular Hematology has up scaled its services with the addition of Next generation Sequencer (NGS) with aim of offering best molecular diagnosis and treatment based on personalized medicine. With the culture of learning, teaching and implementing new technologies along with our work ethics, the department has always been at the forefront academics and patient care.
