President's Pen...

गगन में गर्व से उठउठ,
गगन में गर्व से घिरघिर,
गरज कहती घटाएँ हैं,
नहीं होगा उजाला फिर,

मगर चिर ज्योति में निष्ठा जमाए कौन बैठा है?
अँधेरी रात में दीपक जलाए कौन बैठा है?

तिमिर के राज का ऐसा
कठिन आतंक छाया है,
उठा जो शीश सकते थे
उन्होंने सिर झुकाया है,

मगर विद्रोह की ज्वाला जलाए कौन बैठा है?
अँधेरी रात में दीपक जलाए कौन बैठा है?

जुगनू देखने में बहुत सुंदर लगते हैं। ऐसा प्रतीत होता है कि कहीं जंगल में
आग न लग जाए।

लेकिन ऐसा कभी होता नहीं।

Our romance with Fireflies is kindled when we see one and more so when we see them in hordes. Fireflies are beetles that produce light, mainly at twilight to attract mates. They are also known as lightning bugs or glowworms. The average span of these invertebrates is two months.

Firefly light is usually intermittent and flashes in patterns that are unique to each species. Each blinking pattern is an optical signal that helps fireflies find potential mates. Scientists are unsure how insects regulate this process to turn their lights on and off. Firefly light may also serve as a defence mechanism that clearly warns of the insect's unappetizing taste. The fact that even larvae are luminescent lends support to this theory.

Drawing parallels with fireflies with our doctor community emanated one evening when I was reading Dr. Harivansh Rai Bachchan's poetry and reflecting on the massive 'Chalo Rajghat' congregation. We had worked hard to put together a protest to press for demands. It was very heartwarming to see significant numbers turn up to show

strength as a united group of professionals. And we were noticed! Some of our demands were met. But we need to persevere. For any enterprise to succeed, the intentionality needs to be clearly defined. A fresh charter of demands should be drawn up after a careful review of what we asked, what we achieved, and what we need now. I invite you to send your suggestions as a WhatsApp message, email, letter, or phone call. I welcome and encourage you to reach out to me. As I prepare to hand over the baton to Dr. Alok Bhandari and Dr. Girish Tyagi, dynamic leaders, they will need your continued support, help, and cooperation to take the concerted efforts of the past two years to logical and fruitful conclusions. It will be in the fitness of things that we lay down the incumbent agenda for the betterment of our community and present it to the leadership.

We cannot be a flash in the pan or be like fireflies. Seen and appreciated as harmless gentle beings who can just be left alone, ignored, and dismissed.

जुगनूओं का विरोध कितना भी प्रबल हो, मगर जंगल नहीं जला सकता।

I am not suggesting that we be seen as perpetual agitators. We are key members of the community who make a significant and impactful contribution to society. Our just demands need to be met. We can achieve our objectives if we reign in the attention of the concerned authorities. We need to remain focused and persist.

प्रभंजन, मेघ दामिनी ने
न क्या तोड़ा, न क्या फोड़ा,
धरा के और नभ के बीच
कुछ साबित नहीं छोड़ा,

मगर विश्वास को अपने बचाए कौन बैठा है?
अँधेरी रात में दीपक जलाए कौन बैठा है?

Our self-belief is the key. I have always said and maintained that 'Together We can'

दोस्तो

डीएमए के चुनाव हाल ही में संपन्न हुए।

इस बार डा गिरीश त्यागी विजयी रहे।

उनको बधाई एवम शुभकामनाएं।

दोस्तो दिल्ली का चिकित्सा वर्ग कुछ समय से कठिन दौर से गुजर रहा है।

प्रशासनिक तंत्र के नाजायज नियमों का पालन करने में हम असमर्थ हैं।

हमारे नेतृत्व ने इस में सुधार लाने के लिए काफी प्रयास किए हैं

और आशा करता हूं की जल्द ही हमे इसके अच्छे परिणाम भी मिलेंगे।

आने वाली टीम इन प्रयासों को जारी रखेगी और इन्हे पूर्ण करने में कोई कसर नहीं छोड़ेगी ऐसी हम सभी को उम्मीद है।

आशा है की आने वाले समय में हमे कार्य करने को एक अच्छा वातावरण मिलेगा।

शेष अगली बार।।।।।

आपका

डा अमरजीत सिंह पोपली

Prescription Medication:

The Dangers of Over-the-Counter Access

Allowing the sale of medicines over the counter without a valid prescription poses significant risks to patient safety and public health. When patients obtain medications based solely on the advice of a chemist, without the oversight of a qualified healthcare professional, numerous problems arise.

Firstly, self-medication can lead to mis-diagnosis and inappropriate treatment. Patients may inaccurately assess their symptoms and choose medications that are ineffective or even harmful. This can exacerbate underlying health conditions and delay proper medical care, leading to complications and prolonged suffering.

Secondly, the availability of potent medications, such as antibiotics, anti-anxiety, and anti-depression drugs, without a valid prescription contributes to antimicrobial resistance and drug abuse. Overuse and misuse of antibiotics fuel the development of resistant bacteria, rendering these life-saving drugs ineffective. Similarly, access to psychoactive medications without appropriate monitoring increases the risk of addiction, overdose, and adverse reactions.

Moreover, bypassing the healthcare provider's expertise undermines the patient-doctor relationship and holistic healthcare delivery. A thorough assessment by a qualified healthcare professional is essential to consider factors such as medical history, allergies, and potential drug interactions, ensuring safe and effective treatment.

To address these issues, stringent regulations and enforcement mechanisms are imperative. Restricting the sale of prescription medications to licensed pharmacies with oversight by qualified pharmacists can help safeguard patient safety. Additionally, public awareness campaigns emphasizing the importance of seeking medical advice before taking medications can empower individuals to make informed healthcare decisions.

In conclusion, the unrestricted sale of prescription medications without a valid prescription poses grave risks to patient health and public well-being. Addressing this issue requires a concerted effort from policymakers, healthcare providers, pharmacists, and the public to prioritize patient safety and ensure responsible medication use.

Medical Device Startup MedAlliance acquisition completed by Cordis for USD 1.135 Billion

Amit Bohora

In the ever-evolving landscape of medical technology, MedAlliance has emerged as a pioneering startup with a commitment to transforming patient care. With its medical devices and cutting-edge solutions, the company has caught the attention of industry giants, leading to a landmark acquisition by Cordis, in a groundbreaking deal.

Let us delve deeper into the founders of MedAlliance, their future plans, and the recent statements following this monumental acquisition.

The visionary founder

Recognizing the need for innovative medical devices that could revolutionize healthcare, MedAlliance was founded in 2008 by Jeffery Jump, known for leading valuable studies and this commercial deal with Cordis. Driven by the passion for improving patient outcomes, the founder embarked on a mission to develop devices that address complex medical challenges and set new standards in medical innovation.

Amit Bohora, an early MedAlliance partner, rigorously helped in this transaction with Cordis, as a dedication to patient benefit and medical needs.

Jeffrey B. Jump, MedAlliance's CEO, credits Amit Bohora's 20 years of expertise for advancing transformative medical technology accessibility globally.

"MedAlliance, a pioneer in drug device combinations, has harnessed innovation to provide a groundbreaking solution - the patented Sirolimus drug-eluting balloon, Selution SLR. This innovation ensures the effective delivery of the necessary medication, while leaving nothing behind, revolutionizing the landscape of stentless PCI angioplasty. With Cordis, a vanguard in the field that introduced CYPHER drug-eluting stents in 1999, championing this innovation is the logical progression. MedAlliance's years of research, coupled with ongoing and successful clinical studies in Asia, Europe, and the United States, has resulted in CE mark approvals and four breakthrough US FDA IDE indications," cites Amit Bohora.

"Amit has been a key contributor since foundation to MedAlliance's business and he has been an intricate part of our success, advising management and leading the worldwide commercial team, as well as the Asian clinical team. He was responsible for several important

studies, including leading the Indian coronary study used for CE mark approval and has assisted in fund raising and led the commercial transition of MedAlliance integration into Cordis," said Jeffrey Jump, Founder, Chairman and CEO of MedAlliance.

Innovation that transforms

MedAlliance's groundbreaking medical devices have already made a significant impact in the healthcare industry. Their flagship product, the Selution drug-coated balloon, has garnered widespread recognition for its ability to treat complex cardiovascular diseases and significantly reduce the risk of restenosis.

Future endeavours

With the backing of Cordis and their vast resources, MedAlliance is poised for even greater success in the future. The acquisition will provide MedAlliance with the necessary support to further enhance their research and development capabilities, allowing them to bring more innovative solutions to market. This partnership will undoubtedly accelerate their mission to redefine healthcare and positively influence patient outcomes globally.

"With over 100 million diabetic patients, India stands at the threshold of a medical technology revolution, a trillion-dollar opportunity. The nation's burgeoning healthcare sector not only fuels economic growth but also benefits from a positive funding environment. In a country boasting one of the world's largest cardiovascular patient population, this is the next frontier of growth in healthcare. The Indian medical device industry, already valued at 90 Thousand Crore Rupees (USD 11 Billion), is projected to surge to 3.6 Lakh Crore Rupees (USD 44 Billion) by 2030, underscoring the immense potential and vitality of the healthcare landscape in India." added Mr. Amit Bohora.

The visionary conclusion

MedAlliance's acquisition by Cordis marks a landmark moment in the healthcare industry. With their visionary founders, groundbreaking medical devices, and the support of Cordis, the company is poised to revolutionize patient care and drive innovation in the years to come. As MedAlliance continues its journey, groundbreaking solutions that improve the lives of millions worldwide.

**PROPOSED CONSTITUTIONAL AMENDMENTS IN DELHI MEDICAL ASSOCIATION CONSTITUTION
FOR GENERAL BODY MEETING**

Amendment 1

Proposed

Article 15

Voting

The election for the above posts shall be held with the use of most modern technology aimed at increasing the participation of maximum members and ensuring the fairness of procedures. Therefore a valid voter list with available phone nos. & E-mails should be provided to the contestants for better / electronic communication to voters.

POLLING BOOTH VOTING BY SECRET BALLOT OR ELECTRONIC VOTING MACHINE

**Proposed by:
Dr Rakesh Taneja
OWB – 80**

Article 15

Voting

The election for the above posts shall be held with the use of most modern technology aimed at increasing the participation of maximum members and ensuring the fairness of procedures. **Therefore provision to be made for Online voting and Physical Booth voting.**

ONLINE VOTING

Eligible voters for the post of President Elect and Vice President (Two posts) will have the choice to opt for online voting in the following manner:

a) Eligible voters desiring option of online voting will be required to register for the same with the Election Commission. Registration of interested members will be completed and given to the Election Commission by 3 pm on 23rd January every year. This process will involve registration of email and telephone number of the eligible voter with the Election Commission by sending an email to the Election Commission at the official email id of DMA.

b) The branch wise list of registered online voters will be put on the DMA notice board by the Election Commission latest by 5 pm on 23rd January every year. Those who have registered for online voting in a particular year will not be eligible to cast their votes at Polling Booth in that year.

c) On the voting day, Registered online voters will log in to the DMA election website from their registered mobile number. They will be prompted to cast their votes in the prescribed manner involving two OTP authentication method. Two OTP will be generated one for the mobile number and the other for registered email id. On authentication of both these OTP correctly and simultaneously, separate online ballot pages for the post of President and Vice President (Two posts) will be available for voting. These will be replica of the actual ballot papers with provision for marking the vote preference.

d) Voter will be required to vote for the candidates of their choice on the ballot pages for President and Vice President (Two posts). The online voting date and time will be concurrent with physical voting.

e) Online votes will be counted prior to paper votes. The total count of online votes for each candidate will be confirmed by the candidates followed by counting of paper ballots in the prescribed manner. Result of the election will be declared after adding the total of online and paper votes.

f) The Election Commission will be assisted by a professional and legally competent team to ensure a secure and secret online voting process.

g) The process to settle Election disputes for online voting will be same as for Polling booth voting.
